American Journal of Physiology: Regulatory, Integrative and Comparative Physiology

KEY TO CATEGORIES: **1.** Comparative Physiology *Regulation and Integration in:* **2.** Autonomic Physiology; **3.** Behavior; **4.** Cardiovascular Physiology; **5.** Endocrinology; **6.** Energetics; **7.** Fluids and Electrolytes; **8.** Functional Morphology; **9.** Ingestion; **10.** Periodicity; **11.** Respiration; **12.** Temperature

No. 1. JANUARY 1992

CATEGORY

3 Spontaneously hypertensive rat: lymphoid depression is age dependent and mediated via a mononuclear cell subpopulation
V. H. Pascual, S. Oparil, J. H. Eldridge, H. Jin, K. L. Bost, and D. W. Pascual R1

1,6,9 Triacylglycerol: an important pool of essential fatty acids during early postnatal development in rats
S. C. Cunnane and Z.-Y. Chen R8

1,6,9 Quantitative changes in long-chain fatty acids during fetal and early postnatal development in rats
S. C. Cunnane and Z.-Y. Chen R14

10,7,2 Circadian variation in human cerebrospinal fluid production measured by magnetic resonance imaging
C. Nilsson, F. Ståhlberg, C. Thomsen, O. Henriksen, M. Herning, and C. Owman R20

4,5,7 Role of vasopressin in cardiovascular responses to acute and chronic hyperosmolality
R. D. Russ, B. L. Brizzee, and B. R. Walker R25

3,9 Relationship of adipocyte size to hyperphagia in developing male obese Zucker rats
J. R. Vasselli, J. A. Fiene, and C. A. Maggio R33

9 Caudal brain stem systems mediate effects of bombesin-like peptides on intake in rats
F. W. Flynn R39

9,3,5 Blockade of type A, not type B, CCK receptors attenuates satiety actions of exogenous and endogenous CCK
T. H. Moran, P. J. Ameglio, G. J. Schwartz, and P. R. McHugh R46

2,4,5 Vasopressin responses to unloading arterial baroreceptors during cardiac nerve blockade in conscious dogs
C. P. O'Donnell, L. C. Keil, and T. N. Thrasher R51

4,5,7 Pressure natriuresis and angiotensin II in reduced kidney mass, salt-induced hypertension
J. E. Hall, H. L. Mizelle, M. W. Brands, and D. A. Hildebrandt R61

7,4 The role of B_1- and B_2-kinin receptors in the renal tubular and hemodynamic response to bradykinin
M. Lortie, D. Regoli, N.-E. Rhaleb, and G. E. Plante R72

1,3 Cardiovascular and renal effects of γ-MSH in spontaneously hypertensive and normotensive Wistar-Kyoto rats
X. Y. Sun, Q. P. Feng, Q. L. Gong, L. Edvinsson, and T. Hedner R77

4,5 Endothelin-1 potentiation of angiotensin II stimulation of aldosterone production
E. N. Cozza, S. Chiou, and C. E. Gomez-Sanchez R85

1,7 Use of a thermal pulse decay system to assess avian renal blood flow during reduced renal arterial perfusion pressure
R. F. Wideman, Jr., R. P. Glahn, W. G. Bottje, and K. R. Holmes R90

1 Quantitative analysis on odor intensity and quality of optical isomers in turtle olfactory system
M. Taniguchi, M. Kashiwayanagi, and K. Kurihara R99

2,8,4 Carbachol induces granular cell exocytosis and serotonin release in rabbit cerebral arteries
A.-M. Reynier-Rebuffel, J. Callebert, V. Dimitriadou, P. Mathiau, J.-M. Launay, J. Seylaz, and P. Aubineau R105

2,4 Modulation of bradykinin-induced gastric-cardiovascular reflexes by histamine
C. L. Stebbins, G. L. Stahl, S. J. Theodossy, and J. C. Longhurst R112

4,7,5 Mechanism of decreased cardiac output during ANP infusion in conscious anephric dogs
H. L. Mizelle, C. A. Gaillard, R. D. Manning, and J. E. Hall R120

7,4,11 Blood ion regulation during repeated maximal exercise and recovery in humans
M. I. Lindinger, G. J. F. Heigenhauser, R. S. McKelvie, and N. L. Jones R126

4 Pregnancy-induced changes in ovine cerebral arteries
A. D. Hull, D. M. Long, L. D. Longo, and W. J. Pearce R137

4,5,9 Sucrose-induced lipid, glucose, and insulin elevations, microvascular injury, and selenium
M. K. Lockwood and C. D. Eckhert R144

1,2,4 Ontogeny of cholinergic and adrenergic mechanisms in the frog (*Rana temporaria*) heart
L. L. Protas and G. R. Leontieva R150

No. 2. FEBRUARY 1992

CATEGORY

BOWDITCH LECTURE

Introduction R163

2,4 Renal afferent inputs to ascending spinal pathways
W. S. Ammons R165

5,6,12 Seasonal changes in hormone-sensitive and lipoprotein lipase mRNA concentrations in marmot white adipose tissue
B. E. Wilson, S. Deeb, and G. L. Florant R177

1,2,4 Cyanide excites medullary sympathoexcitatory neurons in rats
M.-K. Sun, I. T. Jeske, and D. J. Reis R182

1,11,12 Prolonged stable hypothermia: effect on blood gases and pH in rats and ground squirrels
M. D. McArthur, M. L. Jourdan, and L. C. H. Wang R190

2,4,7 Effects of α_1-adrenergic blockade on intrarenal hemodynamics in heart failure rats
T. Nishikimi, K. Uchino, and E. D. Frohlich R198

3,7,9 Thirst and brain angiotensin in cattle
J. R. Blair-West, D. A. Denton, M. J. McKinley, and R. S. Weisinger R204

12 Fever, tumor necrosis factor, and interleukin-6 in young, mature, and aged Fischer 344 rats
K. D. Foster, C. A. Conn, and M. J. Kluger R211

5,9 Intravenous infusion of CCK_A-receptor antagonist increases food intake in rats
J. Miesner, G. P. Smith, J. Gibbs, and A. Tyrka R216

1 Diminished iron acquisition by cells and tissues of Belgrade laboratory rats
E. A. Farcich and E. H. Morgan R220

9,3,6 Differential effects of intravenous glucose, amino acids, and lipid on daily food intake in rats
E. K. Walls and H. S. Koopmans R225

10,5 Diurnal rhythms in Ca transfer into bone, Ca release from bone, and bone resorbing activity in serum of rats
H. Shinoda and P. H. Stern R235

3,9 Cholecystokinin and satiety: effect of hypothalamic obesity and gastric bubble insertion
M. G. Boosalis, N. Gemayel, A. Lee, G. A. Bray, L. Laine, and H. Cohen R241

1,11,6 Metabolic fate of lactate after vigorous activity in the leopard frog, *Rana pipiens*
P. A. Fournier and H. Guderley R245

1,7 Electrogenic H^+-regulated sulfate-chloride exchange in lobster hepatopancreatic brush-border membrane vesicles
M. A. Cattey, G. A. Gerencser, and G. A. Ahearn R255

4,7 Increased loop chloride uptake precedes hypertension in Dahl salt-sensitive rats
K. A. Kirchner R263

5,7 Modulation of plasma aldosterone by physiological changes in hydrogen ion concentration
G. V. Jones, B. M. Wall, H. H. Williams, D. N. Presley, D. G. Sapir, and C. R. Cooke R269

2,4 Patterns of hemodynamic responses associated with central activation of coronary vasoconstriction
L. F. Jones, D. D. Gutterman, and M. J. Brody R276

4,7 Saturable transport of manganese(II) across blood-nerve barrier of rat peripheral nerve
K. C. Wadhwani, V. A. Murphy, Q. R. Smith, and S. I. Rapoport R284

2,4 Area postrema stimulation induces differential renal hemodynamics with two anesthetics
D. K. Hartle and A. S. Soliman R289

1,6,4 Recovery metabolism of trout white muscle: role of mitochondria
C. D. Moyes, P. M. Schulte, and P. W. Hochachka R295

7,11,6 Quantitative role of the intracellular bicarbonate buffer system in response to an acute acid load
S. Vasuvattakul, L. C. Warner, and M. L. Halperin R305

5,7 Cerebral metabolic responses and vasopressin and oxytocin secretions during progressive water deprivation in rats
M. Kadekaro, J. Y. Summy-Long, S. Freeman, J. S. Harris, M. L. Terrell, and H. M. Eisenberg R310

1,8 Diet-related changes in mechanical properties of rat vertebrae
G. J. Salem, R. F. Zernicke, and R. J. Barnard R318

RAPID COMMUNICATION

1,4,8 Pinniped splenic volumes
P. J. Ponganis, G. L. Kooyman, D. Sartoris, and P. Jobsis R322

No. 3. MARCH 1992

MUSCLE GENE EXPRESSION

General remarks: Mechanical signals and gene expression in muscle
G. Goldspink and F. Booth R327

6 Changes in skeletal muscle gene expression consequent to altered weight bearing
F. W. Booth and C. R. Kirby R329

4,6 Altered gene expression in fast-twitch muscle induced by chronic low-frequency stimulation
D. Pette and S. Düsterhöft R333

4,8 Remodeling of myofibrils: subcellular distribution of myosin heavy chain mRNA and protein
B. Russell, M. P. Wenderoth, and P. H. Goldspink R339

6,8 Reversibility of load-induced changes in myosin heavy chain gene expression
M. Gupta and R. Zak R346

4,8,5 Mechanical forces and their second messengers in stimulating cell growth in vitro
H. H. Vandenburgh R350

8 Gene expression in skeletal muscle in response to stretch and force generation
G. Goldspink, A. Scutt, P. T. Loughna, D. J. Wells, T. Jaenicke, and G. F. Gerlach R356

4 Switches in cardiac muscle gene expression as a result of pressure and volume overload
K. Schwartz, K. R. Boheler, D. de la Bastie, A.-M. Lompre, and J.-J. Mercadier R364

9,7,3 Influence of dietary calcium on sodium and calcium intake of spontaneously hypertensive rats
M. G. Tordoff R370

9,4,7 Angiotensin-related intakes of water and NaCl in Fischer 344 and Sprague-Dawley rats
F. A. Caputo, N. E. Rowland, and M. J. Fregly R382

4,8 Dietary lipid modulation of connective tissue matrix in rat abdominal aorta
D. D. Hodgkin, R. D. Gilbert, P. J. Roos, L. B. Sandberg, and R. J. Boucek R389

7,5 Comparison of renal actions of urodilatin and atrial natriuretic peptide
D. A. Hildebrandt, H. L. Mizelle, M. W. Brands, and J. E. Hall R395

2,4 Adrenergic presynaptic antagonists and their mechanism of action in smooth muscle
S. Kalsner R400

2,12 Preoptic norepinephrine-induced hypothermia is mediated by α_2-adrenoceptors
N. Quan, L. Xin, A. L. Ungar, and C. M. Blatteis R407

1,5 Rapid stimulation of intestinal D-glucose transport in teleosts by 17α-methyltestosterone
C. E. Hazzard and G. A. Ahearn R412

5,7,9 Repletion of acute sodium deficit in rats drinking either low or high concentrations of sodium chloride solution
N. E. Rowland and M. J. Fregly R419

5 Insulin-like growth factor I preserves host lean tissue mass in cancer cachexia
E.-H. Ng, C. S. Rock, D. D. Lazarus, L. Stiaino-Coico, L. L. Moldawer, and S. F. Lowry R426

4,7 Renal interstitial hydrostatic pressure during verapamil-induced natriuresis
J. P. Granger and M. J. Solhaug R432

1,4,6 Metabolic and cardiodynamic responses of isolated turtle hearts to ischemia and reperfusion
J. S. Wasser, E. A. Meinertz, S. Y. Chang, R. G. Lawler, and D. C. Jackson R437

2,4 Sympathoinhibition and its reversal by naloxone during hemorrhage
E. M. Hasser and J. C. Schadt R444

11 Developmental changes in continuity and stability of breathing in the fetal lamb
H. H. Szeto, P. Y. Cheng, J. A. Decena, D.-L. Wu, Y. Cheng, and G. Dwyer R452

4,5,1 Renal nerves modulate kidney renin gene expression during the transition from fetal to newborn life
W. V. Page, S. Perlman, F. G. Smith, J. L. Segar, and J. E. Robillard R459

2,4 Swimming changes vascular fatty acid composition and prostanoid generation of rats
T. Ohkubo, R. Jacob, and H. Rupp R464

4,2,5 Augmentation of baroreflex-mediated bradycardia in conscious pregnant rats
K. P. Conrad and R. D. Russ R472

2 Modulation of the spinobulbospinal micturition reflex pathway in cats
M. N. Kruse, B. S. Mallory, H. Noto, J. R. Roppolo, and W. C. de Groat R478

5,11 Fetal iron and cytochrome *c* status after intrauterine hypoxemia and erythropoietin administration
M. K. Georgieff, R. L. Schmidt, M. M. Mills, W. J. Radmer, and J. A. Widness R485

1,6,8 Scaling of bodily proportions in adult terrestrial mammals
J. Prothero R492

10,12 Circadian changes of brown adipose tissue thermogenesis in juvenile rats
U. Redlin, B. Nuesslein, and I. Schmidt R504

4,5,7 Captopril enhances renal responsiveness to ANF in dogs with compensated high-output heart failure
D. Villarreal, R. H. Freeman, and R. A. Johnson R509

11,12,6 Subcellular enzyme binding and the regulation of glycolysis in anoxic turtle brain
J. A. Duncan and K. B. Storey R517

4,7 Plasma renin activity responses to graded decreases in renal perfusion pressure in fetal and newborn lambs
N. D. Binder and D. F. Anderson R524

12,6 Natural freezing survival by painted turtles *Chrysemys picta marginata* and *C. picta bellii*
T. A. Churchill and K. B. Storey R530

4,11,12 Effects of temperature and anoxia on regional cerebral blood flow in turtles
P. E. Bickler R538

RAPID COMMUNICATION

7,12 Inhibition of Ca^{2+} and K^+ currents by "antifreeze" proteins
B. Rubinsky, M. Mattioli, A. Arav, B. Barboni, and G. L. Fletcher R542

No. 4. APRIL 1992

CATEGORY

EDITORIAL REVIEW

1,7,9 Vertebrate gastrointestinal fermentation: transport mechanisms for volatile fatty acids
E. Titus and G. A. Ahearn R547

3,9 CCK-receptor antagonists attenuate suppression of sham feeding by intestinal nutrients
D. P. Yox, L. Brenner, and R. C. Ritter R554

2,5,6 Rapid but transient atrophy of brown adipose tissue in capsaicin-desensitized rats
J. Cui and J. Himms-Hagen R562

2,5,6 Long-term decrease in body fat and in brown adipose tissue in capsaicin-desensitized rats
J. Cui and J. Himms-Hagen R568

3,5,9 Satiety induced by endogenous and exogenous cholecystokinin is mediated by CCK-A receptors in mice
S. C. Weatherford, F. Y. Chiruzzo, and W. B. Laughton R574

2,4 Spatial and temporal differing control of sympathetic activities during hemorrhage
S. Koyama, F. Sawano, Y. Matsuda, Y. Saeki, T. Shibamoto, T. Hayashi, Jr., Y. Matsubayashi, and M. Kawamoto R579

9,3 Feeding suppression elicited by electrical and chemical stimulations of monkey hypothalamus
A. Takaki, S. Aou, Y. Oomura, E. Okada, and T. Hori R586

2,8,11 Oxidative and glycolytic pathways in rat (newborn and adult) and turtle brain: role during anoxia
Y. Xia, C. Jiang, and G. G. Haddad R595

2,4,5 Pressor effect of posterior hypothalamic stimulation is enhanced in pregnant rats
T. Hines and J. P. Porter R604

12,7,6 Human thermoregulatory responses during heat exposure after artificially induced sunburn
K. B. Pandolf, R. W. Gange, W. A. Latzka, I. H. Blank, K. K. Kraning II, and R. R. Gonzalez R610

12,7,6 Human thermoregulatory responses during cold water immersion after artificially induced sunburn
K. B. Pandolf, R. W. Gange, W. A. Latzka, I. H. Blank, A. J. Young, and M. N. Sawka R617

9 Intake of different concentrations of sucrose and corn oil in preweanling rats
S. H. Ackerman, M. Albert, R. D. Shindledecker, C. Gayle, and G. P. Smith R624

5,6,2 Attenuation of glucose metabolic changes resulting from TNF-α administration by adrenergic blockade
G. J. Bagby, C. H. Lang, N. Skrepnik, and J. J. Spitzer R628

5,7,4 V_1- and V_2-receptor contributions to ovine fetal renal and cardiovascular responses to vasopressin
M. G. Ervin, M. G. Ross, R. D. Leake, and D. A. Fisher R636

6,10,12 Accelerated reproductive development in juvenile male ground squirrels fed a high-fat diet
J. Dark, N. F. Ruby, G. N. Wade, P. Licht, and I. Zucker R644

4,7,2 Effects of volume expansion on renal sympathetic nerve activity and cardiovascular and renal function in lambs
F. G. Smith, J. M. Klinkefus, and J. E. Robillard R651

2,5,8 Evidence against a humoral control mechanism in adrenal catecholamine secretion during insulin-induced hypoglycemia
L. Lamarche, N. Yamaguchi, F. Péronnet, and F. Guitard R659

4 Reproductive organ blood flow measured using radioactive microspheres in diestrous and estrous mice
R. T. Dowell, C. G. Gairola, and J. N. Diana R666

5 Age and gender effects on insulin secretion and glucose sensitivity of the endocrine pancreas
R. C. Ruhe, D. L. Curry, S. Herrmann, and R. B. McDonald R671

4,2 Carotid chemoreceptors influence arterial pressure in intact and aortic-denervated rats
K. G. Franchini and E. M. Krieger R677

6,8,9 Skeletal muscle composition in dietary obesity-susceptible and dietary obesity-resistant rats
J. Abou Mrad, F. Yakubu, D. Lin, J. C. Peters, J. B. Atkinson, and J. O. Hill R684

2,3,4 Hypothalamic excitatory amino acid receptors mediate stress-induced tachycardia in rats
R. P. Soltis and J. A. DiMiccio R689

5,10 Modulation by pineal gland of ouabain high-affinity binding sites in rat cerebral cortex
D. Acuña Castroviejo, J. L. Castillo, B. Fernández, M. D. Gomar, and C. M. del Aguila R698

RAPID COMMUNICATIONS

4,5,7 C-type natriuretic peptides stimulate chloride secretion in the rectal gland of *Squalus acanthias*
R. Solomon, A. Protter, G. McEnroe, J. G. Porter, and P. Silva R707

7,11 Downregulation of sodium channels during anoxia: a putative survival strategy of turtle brain
M. A. Pérez-Pinzón, M. Rosenthal, T. J. Sick, P. L. Lutz, J. Pablo, and D. Mash R712

LETTERS TO THE EDITOR

Mercury from dental "silver" tooth fillings
R. L. Malvin, J. B. Schnermann, P. C. Churchill, and A. K. Bidani; N. D. Boyd, H. Benediktsson, M. J. Vimy, and F. L. Lorscheider R716

Whether there are differential relationships among discharges of postganglionic sympathetic nerves remains an open question
B. Kocsis; G. L. Gebber R718

Role of nitric oxide in the control of basal hemodynamics
T. Bennett and S. M. Gardiner; M. A. Perrella, K. B. Margulies, and J. C. Burnett, Jr. R721

ANNOUNCEMENTS R723

No. 5. MAY 1992

CATEGORY

INVITED REVIEW

4,1 Gravity and the circulation: "open" vs. "closed" systems
J. W. Hicks and H. S. Badeer R725

2,5,7 Renal nerves contribute to salt-induced hypertension in sinoaortic-denervated uninephrectomized rabbits
M. Ryuzaki, H. Suzuki, K. Kumagai, H. Kumagai, M. Ichikawa, S. Matsukawa, Y. Matsumura, and T. Saruta R733

2,4 Autonomic cardiovascular responses to smoke exposure in conscious rats
T. Nakamura and Y. Hayashida R738

4,5 Central ANP administration in conscious dogs responding to dehydration and hypovolemia
E. Szczepanska-Sadowska, C. S. Oppermann, E. Simon, D. A. Gray, K. Pleschka, and M. Szczypaczewska R746

4,5,7 Acute effects of captopril, an angiotensin-converting enzyme inhibitor, on the pregnant ewe and fetus
E. R. Lumbers, N. M. Kingsford, R. I. Menzies, and A. D. Stevens R754

4 Methylmercury transport across the blood-brain barrier by an amino acid carrier
L. E. Kerper, N. Ballatori, and T. W. Clarkson R761

4,2 Neurogenic vasodilator control of rabbit ear blood flow
W. F. Taylor, S. E. DiCarlo, and V. S. Bishop R766

6,11 Energetic cost of locomotion in the tammar wallaby
R. V. Baudinette, G. K. Snyder, and P. B. Frappell R771

5,7,4 Fluid-regulating hormones during exercise when central blood volume is increased by water immersion
L. M. Sheldahl, F. E. Tristani, T. P. Connelly, S. G. Levandoski, M. M. Skelton, and A. W. Cowley, Jr. R779

5,6 Kinetics of endotoxin-induced acute-phase protein gene expression and its modulation by TNF-α monoclonal antibody
R. J. Sharma, D. C. Macallan, P. Sedgwick, D. G. Remick, and G. E. Griffin R786

1,5 Rainbow trout hepatocyte β-adrenoceptors, catecholamine responsiveness, and effects of cortisol
S. D. Reid, T. W. Moon, and S. F. Perry R794

1,5,10 Regulation of calbindin mRNA and calbindin turnover in intestine and shell gland of the chicken
A. Bar, S. Striem, E. Vax, H. Talpaz, and S. Hurwitz R800

6 A method for identifying external control sites in metabolic systems
B. Crabtree R806

8,1,2 Immunity to nerve growth factor and the effect on motor unit reinnervation in the rabbit
D. I. Finkelstein, A. R. Luff, and J. A. Schuijers R813

2,5 α_2-Adrenergic regulation of galanin and norepinephrine release from canine pancreas
A. J. W. Scheurink, T. O. Mundinger, B. E. Dunning, R. C. Veith, and G. J. Taborsky, Jr. R819

5,6 Relationship between vasopressin and renal concentrating ability in aging rats
G. Geelen and B. Corman R826

2,4,7 Age-dependent changes in afferent renal nerve activity in genetically hypertensive rats
N. G. Moss and A. B. Scoltock R834

4 Maximum heart rate of soricine shrews: correlation with contractile properties and myosin composition
M. Vornanen R842

1,6,11 Intermittent exercise alters endurance in an eight-legged ectotherm
R. B. Weinstein and R. J. Full R852

5,7 Atrial natriuretic peptide does not alter cerebrospinal fluid formation in sheep
A. Chodobski, J. Szmydynger-Chodobska, E. Cooper, and M. J. McKinley R860

4,5,11 Decreased cardiorespiratory effects of neuropeptide Y in the nucleus tractus solitarius in diabetes
J. C. Dunbar, E. Ergene, G. F. Anderson, and R. A. Barraco R865

5,4,6 Identification of carotid vascular receptors that control adrenal catecholamine secretion in dogs
W. C. Engeland, C. D. Zippe, and D. S. Gann R872

1,11 Role of lung inflation in control of air breath duration in African lungfish (*Protopterus annectens*)
A. I. Pack, R. J. Galante, and A. P. Fishman R879

3,10,12 Seasonal variation in the human circadian rhythm: dissociation between sleep and temperature rhythm
K.-I. Honma, S. Honma, M. Kohsaka, and N. Fukuda R885

4,7 Effect of increased neck vein pressure on intestinal lymphatic pressure in awake sheep
R. E. Drake and R. D. Abbott R892

6,8 Stretch-mediated visceral smooth muscle growth in vitro
O. M. A. Karim, K. Pienta, N. Seki, and J. L. Mostwin R895

5,12 Vasopressin-induced antipyresis in the medial amygdaloid nucleus of conscious rats
P. Federico, W. L. Veale, and Q. J. Pittman R901

7 Maturational differences in acetazolamide-altered pH and HCO_3 of choroid plexus, cerebrospinal fluid, and brain
C. E. Johanson, Z. Parandoosh, and M. L. Dyas R909

1,5,7 Fluid retention after oral loading with water or saline in camels
S. Benlamlih, K. Dahlborn, R. Z. Filali, and J. Hossaini-Hilali R915

2,3,12 Tissue specificity of SNS response to exercise in mice exposed to low temperatures
D. Richard, A. Labrie, and S. Rivest R921

3,4 Renal blood flow varies during normal activity in conscious unrestrained rats
H. C. Grady and E. M. A. Bullivant R926

7,5 Micropuncture study of avian kidney: effect of prolactin
J. R. Roberts and W. H. Dantzler R933

No. 6. JUNE 1992

CATEGORY

7 Short-term effect of aldosterone on Na-Cl transport across equine colon
L. L. Clarke, M. C. Roberts, B. R. Grubb, and R. A. Argenzio R939

4,7 Absence of focal glomerulosclerosis in aging analbuminemic rats
C. K. Fujihara, D. M. Zanetta, P. Limongi, H. C. F. de Oliveira, and R. Zatz R947

4,6,8 Geometry of blood-tissue exchange in bat flight muscle compared with bat hindlimb and rat soleus muscle
O. Mathieu-Costello, J. M. Szewczak, R. B. Logemann, and P. J. Agey R955

7 Human placental vitamin B_6 (pyridoxal) transport: normal characteristics and effects of ethanol
S. Schenker, R. F. Johnson, J. D. Mahuren, G. I. Henderson, and S. P. Coburn R966

3,9,5 Individual, but not simultaneous, glucagon and cholecystokinin infusions inhibit feeding in men
N. Geary, H. R. Kissileff, F. X. Pi-Sunyer, and V. Hinton R975

2,9 Exercise-induced sympathetic FFA mobilization in VMH-lesioned rats is normalized by fasting
B. Balkan, G. Van Dijk, J. H. Strubbe, J. E. Bruggink, and A. B. Steffens R981

1,4 Mechanism of intracardiac shunting in the turtle *Pseudemys scripta*
J. W. Hicks and G. M. Malvin R986

2,4,7 Effects of water immersion on sympathoadrenal and dopa-dopamine systems in humans
E. Grossman, D. S. Goldstein, A. Hoffman, I. R. Wacks, and M. Epstein R993

7,5 Food deprivation and refeeding in the camel (*Camelus dromedarius*)
K. Dahlborn, S. Benlamlih, R. Zine-Filali, A. Gueroulali, J. Hossaini-Hilali, and M. Oukessou R1000

2,10 The 10-Hz rhythm in sympathetic nerve discharge
S. M. Barman, G. L. Gebber, and S. Zhong R1006

2,10 Effects of brain stem lesions on 10-Hz and 2- to 6-Hz rhythms in sympathetic nerve discharge
S. Zhong, S. M. Barman, and G. L. Gebber R1015

6,9 Dietary obesity in nine inbred mouse strains
D. B. West, C. N. Boozer, D. L. Moody, and R. L. Atkinson R1025

5 Changes in insulin sensitivity from stress during repetitive sampling in anesthetized rats
R. H. Rao R1033

11,12 Metabolism and ventilation in acute hypoxia: a comparative analysis in small mammalian species
P. Frappell, C. Lanthier, R. V. Baudinette, and J. P. Mortola R1040

5,4,2 Medullary pathways for adrenocorticotropic hormone and vasopressin secretion in rabbits
Z. J. Gieroba, M. J. Fullerton, J. W. Funder, and W. W. Blessing R1047

5,7 Concentration thresholds for fetal swallowing and vasopressin secretion
M. G. Ross, C. Agnew, Y. Fujino, M. G. Ervin, and L. Day R1057

2,4 Central nervous system catecholamine content and norepinephrine release after AV3V ablation
J. W. Van Huysse and S. L. Bealer R1064

3,9,6 Sham feeding in intact and chronic decerebrate rats
H. J. Grill and J. M. Kaplan R1070

11,2,1 Expiratory bulbospinal neurons of dogs. I. Control of discharge patterns by pulmonary stretch receptors
J. Bajić, E. J. Zuperku, M. Tonković-Ćapin, and F. A. Hopp R1075

11,2,1 Expiratory bulbospinal neurons of dogs. II. Laterality of responses to spatial and temporal pulmonary vagal inputs
M. Tonković-Ćapin, E. J. Zuperku, J. Bajić, and F. A. Hopp R1087

5,10 Estradiol phase-shifts circannual rhythms of golden-mantled ground squirrels
T. M. Lee and I. Zucker R1096

4,2 Effect of sinoaortic denervation on pressor responses in pregnant rats
T. Hines and W. M. Barron R1100

1,5,6 Mifepristone (RU 486), a blocker of type II glucocorticoid and progestin receptors, reverses a dietary form of obesity
S. Okada, D. A. York, and G. A. Bray R1106

9,1,3 Differential inhibition of fat intake in two strains of rat by the peptide enterostatin
S. Okada, D. A. York, G. A. Bray, J. Mei, and C. Erlanson-Albertsson R1111

7 Effects of intravenous saline infusion on fetal ovine lung liquid secretion
T. A. Davis, G. Gause, A. M. Perks, and S. Cassin R1117

7,5 Models of neurohypophyseal homeostasis
M. D. Fitzsimmons, M. M. Roberts, T. G. Sherman, and A. G. Robinson R1121

6 Reduction of glutamine synthetase mRNA in hypertrophied skeletal muscle
M. T. Falduto, A. P. Young, G. Smyrniotis, and R. C. Hickson R1131

4,5 N^G-monomethyl-L-arginine and nitroarginine potentiate pressor responsiveness of vasoconstrictors in conscious rats
K. P. Conrad and S. L. Whittemore R1137

4,5,7 Verapamil prevents insulin antinatriuresis in euglycemic rats
A. K. Gupta, R. Clark, and K. A. Kirchner R1145

SPECIAL COMMUNICATION

10 Two families of phase-response curves characterize the resetting of the hamster circadian clock
R. D. Smith, F. W. Turek, and J. S. Takahashi R1149

RAPID COMMUNICATION

5,9 CCK-A receptors mediate the effect of cholecystokinin on vasopressin but not on cortisol in pigs
R. F. Parrott and M. L. Forsling R1154
